

AMENDMENTS TO SPECIFICATION

On page 13, lines 8-13, please replace the original paragraph with the following amended paragraph:

Retracting slack in the electrical cord 14 is also highly implementation dependent. The slack may be retracted into the peripheral input device as in the case of the embodiment in Figures ~~1A-1B~~ 3-4. The slack may alternatively be retracted into an anchor as with the embodiment of Figures ~~[[3-4]]~~ 1A-1B or into a floating structure as in the embodiment of Figure 5. Still other suitable alternatives might be employed.
